| *Statistics*— | |
| Statement A—Showing number of Civil Hospitals and Dispensaries ... ... | 31 |
| Statement B—Showing the distribution of medical personnel ... ... | 32–33 |

*Statistics*—contd. Page.

Statement C—Showing the number of indoor and outdoor patients treated in the State-Public, Municipal, and Local Funds, Private-aided and Subsidised Civil Hospitals and Dispensaries... ... ... 34–101

Statement D—Showing the number of beds, number of indoor and outdoor patients, number of surgical operations, and geographical distribution of infectious and other diseases treated in all classes of Medical Institutions ... ... ... ... ... 102–181

Statement E—Showing the result of the Surgical operations performed in the State-Public, Local and Municipal Funds, and Private-aided Hospitals and Dispensaries ... ... ... ... 182–213

Statement F—Showing the income and expenditure of the State-Public, Local and Municipal Funds and Private-aided Civil Hospitals and Dispensaries ... ... ... ... ... 214–289

Statement G—Showing the Account of Invested Capital ... ... ... 290–294

No. P. 9/D of 1945.

OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY :

Bombay, 29th September 1945.

From

MAJOR GENERAL R. HAY, C.I.E., K.H.P., I.M.S.,
Surgeon General with the Government of Bombay,
Bombay No. 1,

To

The SECRETARY TO GOVERNMENT,
General Department, Bombay.

SUBJECT.—*Report on Civil Hospitals and Dispensaries for the triennium 1942–44.*

I have the honour to submit for the information of Government the report on Civil Hospitals and Dispensaries for the triennium 1942–44.

BUILDINGS.

2. *Major works.*—During the year 1944, no new major work was carried out.

3. *Minor works.*—During the year 1944, execution of new works was restricted to those which were considered to be urgent and inescapable, in view of the difficulties in obtaining building materials, as a result of the conditions created by the war. Even then, several minor works, representing additions and alterations and improvements to buildings of Government Hospitals and Dispensaries were carried out at a cost of Rs. 61,479 from the Surgeon General's Discretionary grant. The following are some of the important works undertaken during the year :—

| Works. | Estimated cost. Rs. |
|---|---|
| (1) Construction of a common mess for Nurses at the Civil Hospital, Sholapur ... ... ... ... | 5,967 |
| (2) Providing additions and alterations to the electric installation at the Civil Hospital, Ahmedabad ... ... | 2,624 |
| (3) Construction of residential quarters for the women S.M.S. Officer, at the Civil Hospital, Karwar ... ... | 4,100 |
| (4) Additions and alterations to the servants' quarters attached to the Civil Surgeon's bungalow (old), at Alibag, to accommodate two compounders ... ... ... | 6,588 |
| (5) Construction of a pantry at the Civil Hospital, Jalgaon ... | 3,095 |
| (6) Construction of a suitable incubation room for carrying out research in connection with Penicillin at the Haffkine Institute, Bombay ... ... ... | 6,599 |

4. *General.*—The buildings of the various Government Hospitals and Dispensaries have been kept in good condition, the requisite repairs having been carried out by the Public Works Department. During the triennium of 1942–44, Major and Minor works costing about Rs. 48,245 and Rs. 2,44,897, respectively, were carried out at the various Government Hospitals and Dispensaries.

## Bombay City Hospitals.

5. During the triennium under report, one hundred beds at the J. J. Hospital, and a similar number at the St. George's Hospital, which were placed at the disposal of the Defence Department in 1941, continued to be at its disposal. In addition, a part of the M. A. Podar Hospital placed at the disposal of the R. A. F., for a hospital of 60 beds for their sick personnel.

6. *G. T. Hospital, Bombay.*—The Clinical Unit System introduced at this hospital has worked very satisfactorily.

The course started for the training of candidates in the D. M. R. continued to make good progress during the year under report. The X-ray and Electro-therapeutic Department is open daily, and is very popular. The need for a proper Out-patients Department is keenly felt. The construction of a new Out-patients Department has been sanctioned by Government as a post-war item.

7. *Cama and Albless Hospitals, Bombay.*—The generous offers of Rs. 1,00,000 from Mr. M. G. Desai for the construction of an administrative Block in the compound of these hospitals with a modern operation theatre and of Rs. 15,000 from Dr. Freany Cama, for the construction of a Nursery for new-born babies, have since been accepted by Government.

## Mofussil Hospitals.

8. *Civil Hospital, Ahmedabad.*—The land for building a new hospital on a more open and healthy site outside the city walls has been acquired, but its construction has been postponed till after the war. In order, however, to meet the increasing demand for in-patient accommodation, it has been decided to convert the B. J. Medical School Hostel into an annexe to the hospital. The question of shifting the students from the hostel to a rented building, is under consideration at present.

9. *Civil Hospital, Nasik.*—A considerable amount of new hospital furniture has been purchased from public donations amounting to Rs. 2,690 collected during the year in cash in addition to a new operation table presented to the hospital. A special grant of Rs. 1,570 has been sanctioned for drugs, etc., for the Venereal Diseases Department at this hospital.

10. *Vithal Sayana Civil Hospital, Thana.*—The District Local Board, Thana, has kindly donated an " ultra-violet ray lamp ", worth Rs. 1,280, for the use of the hospital.

The ambulance supplied to the hospital as a gift from the Thana District Rupee Fund, is proving very useful.

11. *Civil Hospital, Satara.*—Government have accorded administrative approval to the recurring and non-recurring expenditure in connection with the increase in the number of beds from 50 to 75 in the Post War Reconstruction Scheme.

12. *Sassoon Hospitals, Poona.*—The Advisory Committee for the recruitment of Probationer Nurses, formed during the year 1941, is working satisfactorily. The Lady Superintendent has started a Recreation Club for Nurses.

13. *Civil Hospital, Broach.*—This is the only institution in the District where artificial Pneumothorax treatment is given, and many patients are taking advantage of it. A Nursing Association has been formed at this hospital during the year under report under the name of the "Broach Civil Hospital Nursing Association". A sum of about Rs. 8,700 has been collected by way of donations from various philanthropic persons.

GENERAL.

14. *Water Supply.*—Complaints of inadequate water supply exist at a few Government hospitals, notably Belgaum, Dharwar, Sholapur and also J. J. Group of Hospitals and St. George's Hospital, Bombay.

15. *Advisory Committees.*—The committees at Government hospitals in Bombay City and in the mofussil met occasionally during the year and continued to do useful work. Thanks are due to the members for the interest they evinced in the welfare of the patients.

16. *Grants-in-aid to Mission Hospitals.*—Owing to war conditions the financial help from overseas, which the Mission Hospitals in India used to get has been cut off, with the result that the Institutions found it very difficult to continue their normal activities. In order that the authorities in charge of these hospitals may continue their useful work, special grants aggregating the amounts shown below were given to some of the Mission Hospitals in this Province, during the triennium under report :—

| 1942 | 1943. | 1944. |
|---|---|---|
| Rs. | Rs. | Rs. |
| 7,500 | 5,000 | 16,800 |

17. *Unani systems of Medicine.*—With a view to encouraging the Tibbia College, Bombay, the following non-recurring grants were given to it during the triennium :—

| 1942. | 1943. | 1944. |
|---|---|---|
| Rs. | Rs. | Rs. |
| 5,000 | 1,000 | 6,000 |

18. *Ayurvedic systems of Medicine.*—The Mahadevi Anandilal Podar Hospital, Worli, Bombay, started functioning in 14th January 1942. It opened only with the out-door Department, and the in-door Department was started from 10th March 1942. This is the only institution of its kind in the City of Bombay, established on the Ayurvedic system of Medicine on the medical side, with up-to-date facilities for surgical treatment in accordance with modern medical practice.

During the triennium under report, Government have sanctioned the establishment of the State Faculties for the Ayurvedic and Unani Systems of Medicine. These Faculties have been authorised to hold preliminary and qualifying examinations in the respective systems of Medicines under the Bombay Medical Practitioners' Act, 1938.

19. *Leprosy.*—The special Leprosy Officer before resigning his appointment in 1943, had completed the survey of incidence of leprosy in the Districts of Satara, East Khandesh, Sholapur, Ratnagiri, Nasik, Ahmednagar, Poona, Bijapur, West

Khandesh, Ahmedabad, Kaira, Surat, Broach and Panch Mahals, by carrying out house to house survey in some of the selected villages and examining all the school children and the patients and other members of the household of all lepers, he detected. He also gave them suitable instructions as to their segregation and treatment. The main improvement he suggested was that the treatment centres should be in charge of Medical Officers specially trained in leprosy treatment. Arrangements have been made at the Haffkine Institute, Bombay, for the training of S. M. S. Officers, in a special two weeks' course. There are two courses in a year, one commencing from 1st October, and the other from 1st December. Twenty-one S. M. S. Officers have been trained during the triennium under report and some more will be trained in future also.

In addition to the grants for the maintenance of lepers the following non-recurring grants were given to some of the leper hospitals during the triennium under report :

| 1942. | Rs. | 1943. | Rs. | 1944. | Rs. |
|---|---|---|---|---|---|
| (1) Silver Jubilee Leper Hospital, Sankeshwar. | 15,680 | (1) District Leper Hospital, Bijapur. | 3,000 | Leper Hospitals, Belgaum, Nasik and Poladpur. | 6,000 |
| (2) Belgaum Leper Hospital | 400 | (2) Parvatibai Leper Hospital, Surat. | 5,400 | | |
| | | (3) Silver Jubilee Leper Hospital, Sankeshwar. | 2,000 | | |

The management and control of the Kondhwa Budruk Leper Hospital in the Poona District has been taken over by Government, from 1st November 1942, as the Mission to Lepers, India, found itself unable to continue its management and especially as it was necessary to do so, for the detention of statutory lepers, until some other suitable arrangements could be made for providing accommodation for them elsewhere.

So also the management and control of the Sir D. M. Petit Leper Hospital, Ratnagiri, has been taken over by Government from 1st March 1944, as the District Local Board, Ratnagiri, found itself unable to continue its management owing to its straitened financial position, on the condition that it should pay an annual contribution of Rs. 2,000 towards the maintenance of the hospital.

Under the auspices of the British Empire Leprosy Relief Association (Indian Council), 38 centres were working in the Province in 1944. The total number of cases treated at these centres during the year under report was 4,972 ; out of these 3,309 were old cases while, 1,663 were new.

In addition there were 75 centres (clinics) at Grant-in-aid dispensaries. The total number of cases treated at these clinics during 1944 was 1,134. The total number of patients treated in all classes of institutions in the Province during 1944 is reported to be 5,426.

20. *Anti-tuberculosis activities.*—A Tuberculosis ward constructed out of the returnable amounts from the King Emperor's Anti-Tuberculosis Fund has been opened during the triennium under report at the Civil Hospitals, Alibag and Bijapur. A ward for tuberculosis patients at the Civil Hospitals, Jalgaon, which is nearing completion, will be ready for use soon.

21. *Blood Transfusion Service.*—(A.1) Blood plasma has established itself as a therapeutic measure of great importance and Government have appointed a Blood Transfusion Officer of the status of a Civil Surgeon with effect from 2nd December 1944, to organise and develop Blood Transfusion Service in this Province.

Government have also since sanctioned the establishment of a Government Blood Transfusion Service. The service for the present consists of the following two units :

I. Processing Unit—

1 Medical Officer.
1 Assistant Technician.
2 Laboratory Assistants.
4 Laboratory Attendants.

II Mobile blood collecting unit—

1 Medical Officer.
2 Laboratory Assistants.
1 Laboratory Attendant.
1 Peon.

These units will be attached to the Haffkine Institute, Bombay. The intention is that in due course, each Government Hospital should have a static blood collecting unit. It will collect blood primarily for its own hospital transfusions and only surplus blood will be sent to the Haffkine Institute, for processing. The mobile blood collecting unit attached to the Haffkine Institute will collect blood from outside places like Jails, Factories, etc., for processing at the Institute.

A donation of Rs. 10,000 offered towards the establishment of a Blood Bank at the J. J. Group of Hospitals, has since been accepted by Government. Government have also sanctioned the necessary establishment required for the Bank.

The Blood Transfusion Officer during December 1944 made personal contacts with the Railways and Jail authorities, etc., and visited some of Government and non-Government Bombay Hospitals.

B. The Bombay City Branch of the Indian Red Cross Society continued to conduct a blood collecting unit and has done very useful work during the triennium under report.

22. *State Medical Faculty.*—The College of Physicians and Surgeons has raised the L.C.P.S. course from 3½ years to 4½ years from June 1941. Government did not for various reasons agree to follow the revised L.C.P.S. course at the Government Medical Schools but decided to continue old L.C.P.S. curriculum. The College of Physicians and Surgeons was however not willing to postpone the introduction of the revised course. Pending the conversion of the Government Medical Schools at Poona and Ahmedabad into colleges, a State Medical Faculty has therefore been established for holding examination leading upto the registrable qualifications in allopathy. The students passing the examination at the end of 3½ years' course of study held by the Faculty are granted the Diploma called the "L.M.P.(Bom.)".

## Rural Development.

23. (*a*) *Conversion of Dispensaries into Cottage Hospitals.*—A scheme to convert suitable Municipal and District Local Board dispensaries into cottage hospitals has been evolved and Government have so far opened 5 cottage hospitals at the following places :—

(1) Sirsi (North Kanara District).
(2) Sangamner (Ahmednagar District).
(3) Junnar (Poona District).
(4) Dhandhuka (Ahmedabad District).
(5) Dapoli (Ratnagiri District).

These hospitals are in charge of a B.M.S. Class II Officer with a S.M.S. Officer as assistant, in addition to two nurses and other auxiliary staff, and they have provision each for about 15 beds. The idea in converting the dispensaries into cottage hospitals is to provide a co-ordinating link between the Subsidised Medical Practitioners at one end and the District Headquarter hospitals at the other. A rural dispensary, thus re-oriented as a cottage hospital, will take in cases from Subsidised Medical Practitioners as cannot be treated at home and pass on to the larger hospitals those requiring special facilities for diagnosis and treatment. As these hospitals have proved very useful, it is proposed to open 33 additional cottage hospitals, so as to have at least two cottage hospitals to begin with in each of the 19 Districts of this Province.

(*b*) *Improvement to District Local Board Dispensaries.*—As a part of rural Development programme, Government have sanctioned a scheme to give grants to District Local Boards with the view that the dispensaries in the Mofussil in charge of Government S.M.S. Officers, having indoor accommodation, should use them to "capacity" as they are little used at present, because of the poor arrangements for attendance and diet. A grant of Rs. 360 per annum to a dispensary having no nurse or midwife towards the pay of a nurse or two ward-boys, if a nurse is not available, and a grant of 0–4–0 per bed per diem for diet charges of the patients and other contingent expenditure have been sanctioned for the purpose. This arrangement will induce those persons who are unable to attend the dispensary daily to take regular treatment to remain as inpatients. The above scheme has been introduced in all the District Local Board Dispensaries in charge of Government Medical Officers. Government have also further increased the grant of 4 annas per bed per diem for diet charges of the patients and other contingent expenditure to annas 8 with effect from 1st April 1945, in the case of those dispensaries maintained by District Local Board which have agreed to bear 50 per cent. of the additional expenditure involved. It is also proposed to extend the scheme to some of the Municipal Dispensaries in this Province in charge of Government Medical Officers on the condition that the Municipalities agree to bear 50 per cent. of the additional expenditure of 0–4–0 for diet charges.

(*c*) *Village Aid Scheme.*—In view of the fact that it is not possible to extend the Subsidised Medical Practitioners' scheme for the present owing to the paucity of medical practitioners, Government have made a provision of Rs. 20,000 per annum for running about 400 to 500 village centres in the Backward class areas. The scheme envisages the establishment of first-aid centres in villages where there are no medical practitioners and which are situated at a considerable distance from Government or District Local Board Dispensaries. Under this scheme primary school teachers of such villages are provided with boxes containing simple remedies and first-aid articles. They are given instruction in the use of these. This scheme has proved very useful in some Districts like Khandesh, Broach, etc. These village aid centres are actually being opened now.

## Rural Medical Relief.

24. (*a*) *Appointment of Subsidised Medical Practitioners.*—Under the Rural Medical Relief Scheme, Government have so far sanctioned 333 centres in the several Districts. The location and type of 321-of-them have already been decided upon and those of the remaining centres are under consideration. Due to paucity of Allopathic medical practitioners, it has been found difficult to open all the centres. Of the 321 approved centres, only 283 (Allopathic 96, Ayurvedic

175 and Unani 12) were functioning during the year under report. The subjoined table shows the number of Subsidised dispensaries and the total number of patients treated in them in the several districts during 1944.

| District. | Number of Subsidised Medical Practitioners Centres. | | | | Patients treated. | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Allo-pathic. | Ayur vedic | Unani | Total | Men. | Women. | Choldren. | Total. | |
| *Gujarat—* | | | | | | | | | |
| Surat .. | 5 | 7 | 3 | 15 | 9,546 | 6,349 | 7,634 | 23,529 | |
| Kaira .. | 4 | 13 | .. | 17 | 17,571 | 7,962 | 13,884 | 39,417 | |
| Broach .. | 2 | 4 | 5 | 11 | 13,055 | 6,424 | 9,879 | 29,358 | |
| Panch Mahals .. | 3 | 4 | .. | 7 | 8,267 | 3,938 | 5,064 | 17,269 | |
| Ahmedabad .. | 12 | 12 | 2 | 26 | 16,785 | 8,612 | 11,855 | 37,252 | 2 new centres opened. |
| Total .. | 26 | 40 | 10 | 76 | 65,224 | 33,285 | 48,316 | 146,825 | |
| *Deccan—* | | | | | | | | | |
| Poona .. | .. | 10 | .. | 10 | .. | .. | .. | .. | Details not available. |
| Ahmednagar .. | 4 | 8 | .. | 12 | .. | .. | .. | 17,670 | Do. |
| Nasik .. | .. | 6 | .. | 6 | 9,302 | 3,290 | 6,639 | 19,231 | |
| West Khandesh .. | 1 | 18 | .. | 19 | 11,367 | 3,976 | 6,576 | 21,919 | Two new Ayurvedic centres opened. |
| East Khandesh .. | 4 | 7 | .. | 11 | 17,534 | 6,634 | 13,123 | 37,291 | One new Ayurvedic centre opened. |
| Satara .. | 7 | 8 | 1 | 16 | 17,661 | 9,155 | 12,884 | 38,700 | |
| Sholapur .. | 1 | 9 | .. | 10 | 6,214 | 2,997 | 6,390 | 15,601 | |
| Belgaum .. | 14 | 11 | .. | 25 | 27,230 | 12,481 | 17,856 | 57,567 | |
| Dharwar .. | 13 | 6 | 1 | 20 | 27,594 | 16,240 | 17,569 | 61,403 | |
| Bijapur .. | 8 | 6 | .. | 14 | 24,995 | 11,095 | 17,083 | 53,173 | |
| Total .. | 52 | 89 | 2 | 143 | .. | .. | .. | 3,12,555 | |
| *Konkan—* | | | | | | | | | |
| Thana .. | 9 | 7 | .. | 16 | 18,945 | 11,065 | 16,115 | 46,125 | |
| Kolab a .. | 1 | 10 | .. | 11 | 8,251 | 3,542 | 5,138 | 16,931 | Two new Ayurvedic Centres opened |
| Rctnagiri .. | 3 | 16 | .. | 19 | 12,507 | 7,354 | 11,189 | 31,050 | Three allopathic centres having Ayurvedic practitioners temporarily. |
| Karwar .. | 5 | 13 | .. | 18 | 16,544 | 9,449 | 10,186 | 36,179 | |
| Total .. | 18 | 46 | .. | 64 | 56,247 | 31,410 | 42,628 | 130,285 | |
| Grand Total .. | 96 | 175 | 12 | 283 | .. | .. | .. | 589,665 | |

The Subsidised Medical Practitioner scheme has proved a success, and it is therefore proposed to open 100 additional centres as a Post War Reconstruction measure on increased honoraria and allowances, on the condition that the Subsidised Medical Practitioners will undertake vaccination and all anti-epidemic work and the work of Medical Officer of Health. Government have decided that these 100 Subsidised Medical Practitioner centres should be financed and controlled entirely by Government, instead of the expenditure involved being met in the proportion of 4/5th and 1/5th by Government and the District Local Board concerned respectively as at present.

(*b*) *Appointment of nurse-midwives.*—Of the 81 nurse-midwives to be appointed at the District Local Board Dispensaries under the Rural Medical Relief Scheme, only 46 have been appointed upto the end of 1944 as shown in the subjoined table :

| District. | 1942. | 1943. | 1944. |
|---|---|---|---|
| Surat ... ... ... ... | 3 | 3 | 3 |
| Kaira ... ... ... ... | 4 | 4 | 8 |
| Broach ... ... ... ... | 2 | 1 | ..... |
| Panch Mahals ... ... ... ... | 2 | 1 | 1 |
| Ahmedabad ... ... ... ... | ..... | 1 | 1 |
| Poona ... ... ... ... | 3 | 4 | 2 |
| Ahmednagar ... ... ... ... | 4 | 4 | 4 |
| West Khandesh ... ... ... ... | 2 | 2 | 2 |
| East Khandesh ... ... ... ... | 2 | 3 | 1 |
| Satara ... ... ... ... | 4 | 4 | 3 |
| Belgaum ... ... ... ... | 4 | 5 | 5 |
| Bejapur ... ... ... ... | 4 | 3 | 2 |
| Thana ... ... ... ... | 4 | 4 | 4 |
| Kolaba ... ... ... ... | 4 | 4 | 4 |
| Ratnagiri ... ... ... ... | 3 | 3 | 3 |
| Karwar ... ... ... ... | 2 | 4 | 3 |
| Sholapur ... ... ... ... | Did not participate. | | |
| Nasik ... ... ... ... | | | |
| Dharwar. ... ... ... ... | | | |
| Total ... | 47 | 50 | 46 |

25. *Touring Medical-cum-Propaganda Unit.*—With a view to improving the conditions of Bhils, and other aboriginal and hill tribes in the partially excluded areas, Government have sanctioned two touring Medical-cum-propaganda units in the West Khandesh and one in the Nasik District on a permanent basis and 3 units—one each in Thana, Broach and Panch Mahals District, and also in Akrani Mahal, on a temporary basis. Each unit consists of one organiser and one peon. The organiser is provided with medicines, a gramophone and records and a magic

lantern and slides. The organisers give medical aid in the entire area allotted to them and have had considerable success in making the Bhils and other Hill tribes medicine-conscious. As the scheme has proved useful, it is proposed to open three more such units in the West Khandesh District.

26. *Nursing in Hospitals.*—The deficiency of nursing personnel was increasingly felt owing to the situation created by the war. In order to provide an increasing number of nurses, Government have sanctioned the opening of six new training centres for nurses at the following Civil Hospitals with the number of student nurses admitted annually for training, as shown agaist them :—

| Hospitals. | Number of Student nurses. |
|---|---|
| (1) Civil Hospital, Jalgaon ... ... | 12 |
| (2) Civil Hospital, Ahmednagar ... ... | 12 |
| (3) Civil Hospital, Dhulia ... ... | 12 |
| (4) Civil Hospital, Dharwar ... ... | 10 |
| (5) Civil Hospital, Surat ... ... | 12 |
| (6) Civil Hospital, Bijapur ... ... | 12 |
| Total ... | 70 |

They have also sanctioned the admission of additional student nurses annually at the following hospitals :—

| | |
|---|---|
| (1) Civil Hospital, Sholapur .... ... | 7 |
| (2) Civil Hospital, Ahmedabad ... ... | 32 |
| (3) Sassoon Hospitals, Poona ... ... | 10 |

This has increased the total number of student nurses under training by 119.

27. *College of Nursing.*—The College of Nursing, Bombay, started functioning from 1st September 1943. It gives preliminary training in nursing to the student nurses taking the course through the medium of English at the several hospitals, which are recognised by the Bombay Nurses, Midwives and Health Visitors' Council as centres for training of nurses. It trains about 140 student nurses annually. Government have also recently sanctioned the establishment of similar colleges at Poona and Ahmedabad, which will serve as central preliminary training schools for the nurses taking the course through the medium of Marathi and Gujerati respectively. These colleges will start functioning shortly and each will afford a 3 months' course for 60 student nurses annually.

In accordance with the recommendations of the Central Advisory Board of Health, Government have created a Gazetted post of Superintendent of Nursing Services in the Office of the Surgeon General. The Superintendent of Nursing Services assists the Surgeon General in the administration of nursing in this Province.

During the triennium under report, Government deputed two trained nurses for post-graduate training in nursing (Sister-Tutors' Course), one to the School of Nursing Administration, Delhi and the other to the United Kingdom.

The appointment of a Nurse Dietician has recently been sanctioned by Government at the J. J. Group of Hospitals, Bombay, which is the largest teaching hospital in the Province. It is also proposed to create similar appointments at some of the other larger hospitals in the Province in the near future.

28. *Red Cross.*—The Red Cross Society continued to render eminently satisfactory work under its enlarged scope. Most of the Civil Surgeons are members of the District Societies and have co-operated actively in its work.

The Travelling Table Dispensaries conducted by the Society are continuing to do good work in the Belgaum, Bijapur, Broach, Panch Mahals and Surat Districts. The Anti-Tuberculosis Clinics attached to the Civil Hospitals at—

(1) Ahmedabad, (2) Belgaum, (3) Surat, (4) Poona, (5) Nasik and (6) Sholapur, continued to do useful work during the triennium.

The Bombay Provincial Branch of the Indian Red Cross Society pays annually a sum of Rs. 4,140 being half the cost of the nurses employed at these clinics. The Clinics serve the purpose of diagnosis and out-patient treatment and act as a sieve to Hospitals where patients receive indoor hospital treatment. The nurse acts as a Health Visitor also.

29. *Diets to Patients.*—Improved diet scales on a uniform basis have been sanctioned by Government at all mofussil hospitals in the Province.

30. *Scheme for distribution of quinine.*—Owing to the difficulties of getting quinine from trade sources on account of the war conditions, the Government of India decided to allocate supplies of quinine available with them for distribution through the Provincial Governments to the private registered medical practitioners and hospitals and dispensaries which are not clients of the Medical Store Depot. The scheme for the distribution of quinine was started in this Province in December 1942 and the supplies of quinine allotted from time to time are distributed by the Superintendent of Excise, Bombay, to the private registered medical practitioners and the hospitals and dispendaries, according to the quota authorised by Government and the Surgeon General.

For this work, a special staff has been sanctioned by Government, and the sanction at present accorded will expire on 31st March 1946.

Along with quinine, quinine substitutes like Mepacrine and Quinacrine are also issued to Medical Practitioners and institutions in this Province on a very liberal scale.

31. *Subsidiary Police Hospital, Naigaum.*—A Subsidiary Police Hospital at Naigaum in charge of a B.M.S. Class II Officer, with a Dispensary for outdoor patients at Worli, was opened during the triennium under report for the treatment of sick policemen in view of the increase in the strength of the Police Force—both officers and constabulary.

32. *Acknowledgments.*—The Department expresses its thanks to all individuals and bodies who have extended their generosity towards the patients in the several hospitals by way of donations or gifts.

*Statement A.*

33. The total number of Institutions open at the beginning of the triennium was 739. During the triennium under report 42 new Institutions were opened and 16 were closed. The number of Institutions opened on 31st December 1944 was 765.

*Statement B.*

34. The following table shows the distribution of Medical Officers (including onorary Medical Officers) Nurses, Midwives, Dais and compounders in the veral classes of institutions and the Subsidised Medical Practitioners employed the Province under the Rural Medical Relief Scheme, during the year 1944 d the Provincial totals for the last two years in this triennium, the mean for e triennium under report and for the last triennium :—

| Class of Institutions. | Medical Officers. | Nurses. | Mid-wives. | Dais. | Compounders. |
|---|---|---|---|---|---|

## Income and Expenditure.

The receipts and expenditure at the two Medical Schools for the year 1944 have been shown in the subjoined statement.

*Receipts.*

| Items. | Poona. | Ahmedabad. |
|---|---|---|
| | Rs. | Rs. |
| School Fees ... ... ... ... | 14,014 | 13,566 |
| Hostel rent* ... ... ... ... | 2,981 | 2,700 |
| Miscellaneous ... ... ... ... | 16 | ..... |
| Post-graduate fees ... ... ... ... | 120 | ..... |
| Total ... | 17,131 | 16,266 |

*Credited to XXXIX, Civil Works.

*Expenditure.*

| Items. | Poona. | Ahmedabad. |
|---|---|---|
| | Rs. | Rs. |
| Pay of Officers ... ... ... ... | 21,742 | 19,845 |
| Pay of establishment ... ... ... ... | 11,408 | 9,185 |
| Allowances and Honoraria ... ... ... ... | 19,236 | 13,085 |
| Contingencies ... ... ... ... | 9,555 | 5,257 |
| Scholarships ... ... ... ... | 720 | ..... |
| Repairs to Buildings* ... ... ... ... | 1,758 | 1,278 |
| Total ... | 64,419 | 48,648(*b*) |

*By Public Works Department.

(*b*) Of this expenditure, 66 per cent. was met from the Provincial Revenue and 34 per cent. from the school fees and other sources.

## Government Scholarships and Free Students.

During the year under report no fresh scholarships to women students of the B. J. Medical School, Poona were awarded. Only 4 out of 5 scholarships awarded to women students during the year 1943–44 were continued. In addition free-studentships were given to poor and deserving students. The usual free-studentships were granted to poor and deserving students of the B. J. Medical School, Ahmedabad.

## Grant Medical College, Bombay.

The Grant Medical College, Bombay, opened the year 1944–45 with 703 students as shown in the subjoined table :—

| Class. | Males. | Females. | Total. |
|---|---|---|---|
| I year ... ... ... ... | 91 | 23 | 114 |
| II year ... ... ... ... | 145 | 28 | 173 |
| III year ... ... ... ... | 70 | 13 | 83 |
| IV year ... ... ... ... | 102 | 20 | 122 |
| V year ... ... ... ... | 184 | 27 | 211 |
| Total ... | 592 | 111 | 703 |

Of those 42 left the college on completion of their course. There were 144 (100 males and 44 females) new admissions (96 males and 44 females in the first year class, 3 males in the second year class, and 1 male in the fifth year class) during the year and at the end of the year (31st March 1945) there remained 722 students in the several classes as shown below :—

| Class. | Males. | Females. | Total. |
|---|---|---|---|
| I year ... ... ... ... | 97 | 43 | 140 |
| II year ... ... ... | 127 | 30 | 157 |
| III year ... ... ... ... | 93 | 16 | 109 |
| IV year ... ... ... ... | 73 | 14 | 87 |
| V year ... ... ... | 198 | 31 | 229 |

## Examination Results.

The following table shows the number of students that were sent up and those who passed in the several examinations mentioned below :—

| Examinations. | No. sent up | No. passed. | No. failed. |
|---|---|---|---|
| *First M.B.B.S.*— | | | |
| April 1944 ... ... ... ... | 161 | 66 | 95 |
| October 1944 ... ... ... ... | 92 | 48 | 44 |
| *Second M.B.B.S.*— | | | |
| April 1944 ... ... ... ... | 94 | 86 | 8 |
| October 1944 ... ... ... ... | 58 | 40 | 18 |
| *Third M.B.B.S.*— | | | |
| April 1944 ... ... ... ... | 139 | 29 | 110 |
| October 1944 ... ... ... ... | 169 | 65 | 104 |

## Government Freeships and Scholarships.

There are no freeships at this College but children and dependents of soldiers who are on active service in the Army are given a scholarship of Rs. 15 per mensem each plus an amount equivalent to all fees levied in colleges including fees for games and such other fees as may ordinarily be charged such of them as reside in a hostel are paid in addition their hostel charges subject to a maximum limit of Rs. 40 per mensem.

Five women students were in receipt of Government Scholarship of Rs. 40 per mensem each during the year.

Receipt and expenditure relating to Grant Medical College, Bombay, for the year 1944–45 :—

| Receipts-XXVII—Medical. | Rs. | a. | p. | Expenditure-(38—Medical). | Rs. | a. | p. |
|---|---|---|---|---|---|---|---|
| College fees ... | ...2,00,081 | 0 | 0 | Pay of Officers ... ... | 51,351 | 0 | 0 |
| Income from Endowments ... | 497 | 0 | 0 | Pay of Establishment ... | 72,525 | 0 | 0 |
| Miscellaneous ... ... | 1,942 | 0 | 0 | Allowance and Honoraria, etc. | 99,443 | 0 | 0 |
| Hostel Rent ... ... | 34,454 | 0 | 0 | Contingencies ... ... | 54,165 | 0 | 0 |
| | | | | Grant-in-aid, etc. ... ... | 4,500 | 0 | 0 |
| | | | | Scholarships ... ... | 4,788 | 0 | 0 |
| Total | ...2,36,974 | 0 | 0 | Total | ...2,86,772 | 0 | 0 |

Credited to XXXIX—Civil Works.

## The Department of Chemical Analyser to Government, Bombay.

The following is a short summary of the work performed by the Chemical Analyser to Government of Bombay, during the year 1944 :—

| Cases. | Total No. of cases investigated. | Total No. of articles examined. |
|---|---|---|
| Cases of human poisoning ... ... ... ... | 723 | 1,529 |
| Cases of animal poisoning ... ... ... ... | 53 | 284 |
| Stain cases ... ... ... ... ... | 597 | 2,781 |
| Miscellaneous Medico-legal cases ... ... ... | 354 | 800 |
| Samples from the Excise Department ... ... ... | ..... | 7,334 |
| Other Government work ... ... ... ... | ..... | 15 |
| Miscellaneous samples ... ... ... ... | ..... | 248 |
| Total ... | 1,727 | 12,991 |

The statement of income and expenditure for the same year is furnished below :—

| *Receipts.* | | *Expenditure.* | |
|---|---|---|---|
| Items. | Rs. | Items. | Rs. |
| Fees for Chemical Analysis ... | 7,586 | Pay of Officers ... ... | 15,662 |
| | | Pay of Establishment ... | 11,482 |
| | | Pay of temporary Establishment. | 268 |
| | | Allowances ... ... | 4,703 |
| | | Contingencies ... ... | 10,280 |
| Total ... | 7,586 | Total ... | 42,395 |

Since 12,991 articles were examined the cost of analysis per article comes o Rs. 3–4–0.

The number of explosive cases during the year 1944 has come down from 190 o 30 but simultaneously the number of cases under the Defence of India Rules as considerably gone up, 294 being analysed during the year as compared with nly 111 in 1943.

The details regarding the working of the Department have been furnished n the Annual Report of the Chemical Analyser to Government for the year 1944, which has already been submitted to Government.

## Rambilas Anandilal Podar Medical College (Ayurvedic), Worli, Bombay.

The R. A. Podar Medical College (Ayurvedic), Bombay, was started in the year 1941 has now become a full grade College teaching the 4 years' course as prescribed by the Board of Indian Systems of Medicine, Bombay. The total number of the students in the year under report was 80 against 40 in the last year :

| | |
|---|---|
| 1st year ... ... ... ... | 29 students. |
| 2nd ,, ... ... ... ... | 13 ,, |
| 3rd ,, ... ... ... ... | 17 ,, |
| 4th ,, ... ... ... ... | 21 ,, |

The College has now the largest number of students on its rolls in the Province.

The College has been making steady progress and is gaining in popularity amongst the students so much so that over a dozen students migrated from mofussil sister institutions.

*Staff.*—Total strength of the teaching staff in the College was as under :—

| | |
|---|---|
| Senior staff ... ... ... ... ... | 11 |
| Demonstrators ... ... ... ... ... | 2 |

*Results.*—The results of this institution in the last State Faculty of Examination were very encouraging. In the first year examination a student from this College topped the list of successful candidates and in the second year examination both the first and second places were secured by students of the College. The pass percentage of the College was high as compared with the average of the State Faculty as a whole :—

| | State Faculty. | Potdar College. |
|---|---|---|
| 1st year examination ... | 42 per cent ... | 87·5 per cent. |
| 2nd year examination ... | 45·9 per cent ... | 66·7 per cent. |
| 3rd year examination ... | 70·4 per cent ... | 81·8 per cent. |

*Scholarships and freeships.*—There are four Government scholarships of Rs. 15 per mensem—one for each year with the concession of free tution to the scholarship holders. Out of them 2 were availed of in the year 1944—one in the first year and one in the second year. 13 scholarships of Rs. 10 per mensem each were given to the poor students of this College by the Trustees of Late Vaidya Hari Prapannji Trust Fund, Bombay.

According to the conditions of the donation, 8 students were admitted free by the donors.

*Income and expenditure.*—The receipts and expenditure of the R. A. Podar Medical College (Ayurvedic), Bombay, for the year 1944–45 are shown in the sub-joined table :—

| *Receipts.* | | *Expenditure.* | |
|---|---|---|---|
| Items. | | Items. | |
| | Rs. | | Rs. |
| College Fees ... ... | 8,710 | Pay of Officers ... | 9,236 |
| Miscellaneous ... ... | 18 | Pay of Establishment ... | 9,810 |
| | | Allowances and Honoraria ... | 10,539 |
| | | Contingencies ... ... | 5,300 |
| Total ... | 8,728 | Total ... | 34,885 |

## Note on the Working of the Haffkine Institute, 1944.

A. *General.*—The year under review put considerable strain on the resources of the Institute. The unsettled conditions in the country and the danger of air-raids called for large quantities of different therapeutic sera to be supplied to different provinces. The recently organised department of serum production had to increase its work considerably to cope with these demands. Heavy demands were also made on the Department of Pharmacology. It rendered very valuable aid to the Army Authorities. All the pharmacological preparations and other medical supplies purchased by the Army in Western India or imported through the Port of Bombay, were submitted to this department for analysis. Nearly 2,000 drugs and chemicals were examined and the examination included both chemical and biological tests. This service has helped the forces to maintain the quality of the medical supplies at a high level. Owing to the shortage of antiseptic solutions, an antiseptic solution called "Pemon" has been prepared by the Department of Chemotherapy and is being supplied to the hospitals.

Outbreak of cholera called for large quantities of cholera vaccine. Other vaccines were also in great demand. These demands were unusually high and had to be met in spite of the scarcity of agar in the country. However, the Institute managed to meet them.

Epidemics of plague broke out in certain parts of China, and the situation required immediate attention. Arrangements were made to train a large number of Chinese medical officers, sanitary engineers and bacteriologists in plague control work at the Institute, and intensive training was given in the measures adopted for the control and prevention of plague epidemics. Training was also given in the large-scale production of plague vaccine and therapeutic sera.

B. *Department of Vaccines.*—Vaccines issued during the year.

| | |
|---|---|
| Plague Vaccine ... ... ... | 7,731,383 c.cs. |
| Cholera Vaccine ... ... ... | 4,354,943 c.cs. |
| T. A. B. Vaccine ... ... ... | 232,593 c.cs. |
| Meningococcal Vaccine ... ... ... | 350 c.cs. |

C. *Department of Antitoxins and Sera.*—During the year, a total of 90 horses were used for the production of therapeutic sera. Out of the total number of 90 horses, 44 were used for hyperimmunization against tetanus, 15 against diphtheria, 9 against gas gangrene, 4 against dysentery, 14 against snake-venom and 4 against plague. A total of 161 batches of toxins and toxoids, about 3,870 cc. each batch, were prepared for immunizing the horses. A few batches of toxoid were specially processed for use in man. One hundred and seventy-four batches of plasma were concentrated during the year. The average yield of concentrated and purified serum per batch was 3,313 c.c., so that 576,480 c.c. of concentrated and purified serum were prepared during the year. In addition to this, 69,710 c.c of natural anti-plague and anti-dysentery sera were processed for use in man. Sera and toxoids, which were issued during the year amounted as follows : 562,662 c.c. of serum, 8,917 c.c. of tetanus toxoid, and 9,456, c.c. of diphtheria alum precipitated toxoid. Research works, with a view to preparing and standardising a new polyvalent anti-snake-venom serum, were undertaken during the year. Successful results were obtained.

D. *Department of Entomology.*—This department was engaged in tabulation and evaluation of data about fleas and rodents collected during the period of field investigations by the members of the Plague Recrudescence Inquiry in the Dharwar District. Recommendations for setting up permanent organisations for plague control in the suspected plague endemic centres and the neighbouring areas in the Peninsular India were submitted to the Director of Public Health for the Government of Bombay. Inquiries from different civil and military departments about the identification of snakes, insects, ticks and rodents and general information for their control were attended to, and suggestions to improve the construction of rat-traps were given.

E. *Department of Pharmacology.*—The activities of the department were almost entirely concerned with the examination of drugs and chemicals on behalf of the army. Nearly 2,000 drugs and chemicals were examined and the examination included both chemical and biological tests. The department also prepared and supplied to the army, solutions like ' Mydricaine ' at the special request of Medical Directorate, G. H. Q., New Delhi. Sulphanilamide paste for use in tropical ulcer was prepared and supplied to the medical officers of the province. The routine work carried out in the department chiefly consisted of examination and standardization of pharmaceutical products prepared by commercial firms and examination of drugs sent by medical officers and institutions in the province for purity and potency.

F. *Department of Virus Diseases (Including Rabies).*—(1) During the year under review 4,578 persons attended the Institute for anti-rabic treatment as against 4,236 the previous year. The different anti-rabic centres were supplied with 8,335 treatments. Of these, 584 were issued for veterinary use. One patient developed hydrophobia. The patient, who had received two punctured wounds on the hand as a result of a bite of a stray dog, sought advice 45 days later, when the wounds had all healed up. Consequently a class III treatment was given. The patient developed hydrophobia four days after the course of treatment.

(2) Vaccine against Yellow fever manufactured by the Laboratories of the International Health Division of the Rockefeller Foundation is stored in the Institute. The vaccine is lyophilised attenuated yellow fever virus known as 17D.

Inoculations were carried out on 6,585 people during the course of the year.

G (I). *Department of Nutrition.*—This department continues to render useful ervice to the Finance Department (Supply) of the Government. Various questions n human nutrition arising out of the rationing of food-stuffs in the province ere referred to the Institute and the department has been giving technical dvice in matters of practical nutrition. During the year, experimental work n connection with the fortification of wheat flour with calcium carbonate was ndertaken. It was found that the addition of calcium carbonate to wheat flour n a proportion of 1 in 320 did not have any deteriorating effect on the protein nd vitamin $B_1$ content of the latter under ordinary conditions of storage for our weeks. The analytical work was carried out in collaboration with the Depart-ent of Biochemistry at the Institute.

Towards the middle of the year, the Finance Department (Supply) appointed Nutrition Officer maninly to undertake field work and carry out rapid nutrition nd diet surveys. This officer was trained at the Institute for the work and he at present working in close co-operation with the Department of Nutrition at e Institute.

G. (II). *Department of Experimental Pathology.*—During the year 895 pathological ecimens, received from different hospitals in the province, were examined. hey include brains from suspected rabid dogs, neoplasms, gynæcological conditions, uberculosis of different tissues and some rare and interesting pathological specimens. his department continues to give assistance to the research enquiries conducted t the Institute.

A medical officer deputed by the Baroda Government was trained in the depart-ent in histological technique and morbid histology.

H. *Department of Clinical Pathology.*—During the year, 16,003 specimens ere examined by this department, received from Government hospitals and ispensaries and private medical practitioners. Free diagnostic aid is given n many infectious diseases besides typhoid fever, such as diphtheria, typhus ever, cerebro-spinal fever, dysenteries and malaria. The total number of samples xamined for agglutination tests was 1,783. A few cases of typhus fever were etected by agglutination tests alone. The number of samples of blood, examined or Wassermann and Kahn tests was 9,606 and 2,954 respectively. Friedman ests were done on 163 urine samples during the year. In addition to the routine iagnostic tests the activity of the department was also concerned in the preparation f auto-vaccines, identifications and maintenance of poisonous snakes and extraction f snake-venom and examination of samples of disinfectants for the Rideal-Walker est.

A scheme for the preparation and supply of diagnostic reagents was sanctioned y Government under letter No. 5313/33/3082, dated 24th March 1944. Under his scheme, some of the diagnostic reagents, such as agglutinable suspensions, high itre sera, blood-grouping sera, Kahn antigen, rapid malaria stain (JSB) have een prepared. About 200c.c. of group sera A and B, have been supplied during he year. Preparation of a water soluble stain (JSB) for malaria has resulted in aving such costly reagents as glyserine and methyl alcohol, and the stain has een supplied to all Civil Surgeons and Government hospitals of this province.

I. *Department of Biochemistry.*—This department continued to give useful help o various hospitals and medical practitioners as before in the diagnosis of disease y the various biochemical examinations.

The department also carries out work in nutritional problems and undertak vitamin assays. Oxidation of different substances by the plague bacillus is al being studied.

*J. Department of Chemotherapy.*—During the year, some new sulphanilami derivatives were prepared and their therapeutic action tested. Large-scale metho of production of atebrine, vitamin A, concentrate from shark-liver oil and penicill are being investigated.

## Researches.

A. *Department of Entomology.*—An earlier study on the effects of consta temperature and humidity on the development of the larvæ of *X.cheopis*, *X.ast* and *X.brasiliensis* was in course of preparation for publication. The larvæ *X.astia* are more susceptible to low humidities than those of the other two specie The temperature tolerance of the larvæ of *X.astia* is highest and that of the larv of *X.brasiliensis* is the lowest. The experiments conducted to determine the wat relations of the larvæ of *X. cheopis* indicate that the great loss of water from th larva due to absence of any special organ for economising water is compensated b the gain of water through food and absorption of water-vapour directly from th air through the integument. In order to test the pulicidal value of D. D. T., an its residual killing effect on fleas, experiments under laboratory and artifici burrow conditions simulating nature were carried out, and the preliminary resul give a great hope that the use of D. D. T., will prove very beneficial in the contr of plague.

*B. Department of Pharmacology.*—Investigations on the causation and treat ment of tropical ulcers were undertaken. It was found that the disease could no be transmitted to experimental laboratory animals, but was readily transmitte to man if the skin was broken. Attempts to transmit the disease to the unbroke skin failed. Application of sulphanilamide and preferably sulphathiazole past was found to be an efficient and convenient method of treatment.

C. *Department of Virus Diseases (Including Rabies).*—The Weil-felix reaction were carried out on 1,596 samples. Of these 75 gave agglutination titres agains OX19 in dilutions of 1/250 and over. An analysis of the clinical symptoms of th typhus in Bombay has shown the following features :—(1) The average duratio of the fever was 14·1 days. (2) The rash was present in 20·6 per cent. of th cases. (3) The case mortality was low, in the neighbourhood of 1 per cent. On more strain of typhus has been isolated.

Five strains of typhus OXK in type, were compared with each other in th rabbit. It was seen that the two strains from Imphal, two from Ceylon and on from Calcutta, showed complete reciprocal cross immunity against on another.

The chemotherapeutic activity of 8 representative compounds, which ar heterocyclic derivatives related to Sulphathiazole and Sulphadiazine, against XK typhus was studied. None of these had any action on the course of the disease in the mouse.

D. *Department of Nutrition ad Experimental Pathology*—(*a*) *Tropical ulcer.*—arly in the year, a research unit from the Institute was sent to East Khandesh carry out an investigation on cases of chronic ulcer of the skin and underlying ssues, situated mostly on the lower extremeties, which were reported to be occurring large numbers. Extensive laboratory investigations were carried out and it as found that the ulcer closely resembles " Naga Sore " or " Tropical Ulcer ", described in Assam. The incidence of " Tropical Ulcer " has not been reported fore in the Bombay Province.

As the treatment of the ulcer has been unsatisfactory an extensive clinical trial as given to the application of a sulphathiazole paste in water-in-oil emulsion of d-liver oil, prepared at the Institute. Local application of the paste combined ith general treatment has yielded very encouraging results.

(*b*) *Vitamin C content of Sweet Toddy.*—Investigations carried out at the Institute uring previous years have shown that fresh sweet toddy contains approximately ) mg. per cent. of vitamin C. Further experiments were undertaken which show at the vitamin C in sweet toddy can be preserved by the addition of sodium nzoate, citric acid and sodium metabisulphite, if the toddy is stored in the cold a temperature of about 4°C. Under these conditions, nearly two-thirds of the iginal amount of vitamin C was still present in the toddy even after a prolonged orage for 10 months. On the other hand, when it is stored at room temperature a dark cupboard, addition of the abovementioned preservatives had practically effect on the preservation of vitamin C. At the end of one month, nearly vo-thirds of the vitamin C was destroyed and at the end of three months there as practically no vitamin C left in the toddy.

(*c*) *The role of nutritional factors in hepatic cirrhosis.*—Under the auspices of the ndian Research Fund Association, a research enquiry was commenced during the ear to study the possible role of nutritional factors in the production of cirrhosis the liver. Portal cirrhosis is a common disease in certain parts of India, mostly poorer classes of people and the ætiology of the condition is obscure. Experiental work in connection with this enquiry is in progress. Young albino rats e fed on purified synthetic diets and the resulting chemical and histological anges in the liver studied.

E. *Department of Clinical Pathology.*—Contaminations of bile-clot cultures ffered a serious menace to the diagnostic aid in enteric fevers. The problem of eeping down the contaminations was taken in hand and various media were tried r clot cultures. The routine ox-bile medium, when modified by the addition of lycerine and peptone, brought down the contaminations from 50 to 25 per cent. Vork is in progress to reduce this percentage further.

*Statement showing the receipts and expenditure of the Haffkine Institute, Pare Bombay, for the Calendar year* 1944 (1*st January to* 31*st December* 1944) :—

| *Receipts.* | Rs. | *Expenditure.* | Rs. |
|---|---|---|---|
| Sale proceeds of sera and vaccines, etc. | 9,98,711 | *Haffkine Institute—* | |
| | | Pay of Officers ... | 1,09,775 |

| VI. Railways .. .. .. | 12 | 33 | .. | .. | .. | .. | .. | .. | 12 | 33 | |
| VII. Subsidised .. .. .. | 276 | .. | 7 | .. | .. | .. | .. | .. | 283 | .. | |
| Total for the Province .. | 442 | 316 | 7 | .. | .. | .. | .. | .. | 449 | 316 | |

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as "State" when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.

CLASS VII.—Comprises all subsidised dispensaries opened under the "Rural Medical Relief Scheme."
